Electives

**Wellness** - Emphasis in this course will be on studying the whole person. This class will help students understand what it means to live well and how humans are to best live in the community. By equipping students with knowledge on physical, emotional, mental and spiritual development, Wellness will help promote wise lifestyle decisions within the context of the Biblical truth found in 1 Corinthians 6:19: our bodies are indeed temples for the Holy Spirit, and we can honor God not only with how we develop our academic minds, but also by how we choose to live.

**Computer 1** - Office XP core is designed to provide students with knowledge of the computer terminology and concepts. Operating systems and hands-on instruction for the Microsoft Office XP Software Package will be covered. This includes a word processor, an electronic spreadsheet, a database and slide show presentations.

**Finance** - Our high school curriculum covers personal Finance through engaging and age-appropriate video series hosted by Dave Ramsey. The curriculum reinforces 21st century learning skills through activities requiring students to analyze, integrate and apply new information to real-life problems and activities. Material is presented in an interactive format, requiring students to take an active role while watching lessons. Our goal is to equip students with the skills and knowledge needed to make sound financial decisions for life. Finance is usually paired with Bible Life Skills.

**Contemporary Issues** - Serves as a means to bridge the gap between Rossville Students’ biblical rearing and the biblical world-view with which we seek to equip them. This class will teach students to responsibly and critically examine the modern dilemmas and issues the world presents while gauging said issues through a gospel-enriched lens. By equipping students with the necessary knowledge and skills to understand the issues with which they are challenged, the intentions of our Lord expressed through the context of the Biblical truths in His word can be realized in us and through us.

**Yearbook** - The course is designed to provide students with an understanding of the steps for creating and publishing a school yearbook. Photography, fundraising, and computer layout designs will be covered. Must go through an interviewing process to join.
Advanced Placement & Honors

National Honor Societies--RCA acknowledges those students who excel academically in individual disciplines by inducting them into National Honor Societies. RCA is proud to have Honor Society chapters in English, Math, Science, History, Art, and Spanish
